

17 February '66

V-P Albright -- The Senate Council today voted to accept the recommendations in the "Preliminary Draft" on Status of Librarians (copy attached). This includes matters of tenure and Senate membership. There is still some question whether the Council has power to do this regarding the matter of membership in the Senate (tenure I think is another matter), and I believe that the Council should circulate the membership seven days before the next meeting if allow for a possible objection. I can't believe anyone will offer to discuss the subject. Would you like me to ask Ed to do this, or to place the matter on the agenda, or follow some other course? Doubtless Ed will report the Council action to you in a few days.

Bob E

Bob E.

Ed has talked briefly with me. Apparently no problems. The Board has adopted a set of policies based on Council action.
