

Special Title Series

UNIVERSITY OF KENTUCKY  
LEXINGTON, KENTUCKY

EXECUTIVE VICE PRESIDENT

May 6, 1966

Blind cc: President John W. Oswald ✓

Dear Dr. Cochran:

Several points follow which relate to the Special Title series of Extension Professorships:

1. The criteria for appointment and promotion are approved provisionally; these may require further development over the next year as their use would indicate.
2. The committee which you appointed at the President's direction should be asked to continue their service as a special area committee to advise on this Special Title series. You should request their continuance for this next year.
3. The vita of Donald E. LaBore, titled Associate Extension Professor on the Reappointment form should be submitted to the special area committee for confirmation.
4. The committee certainly deserves our thanks for their work. The criteria, as they are further developed, might well be considered for use in the University generally.

Sincerely,

A. D. Albright  
Executive Vice President
