- ‡ Incoming Students are strongly encouraged to take WRD 112 to fulfill the CC1 & CC2 requirements if they have any of the following: an ACT English score of 32 or Higher, an SAT Verbal score of 720 or higher, or an AP English Composition score of 4 or 5. If the student has been accepted into the University Honors Program, the student is required to take WRD 112 to fulfill CC1 & CC2.
- * To be discussed with your academic advisor.
- ‡ Students who have taken at least 2 years of a language in high school can complete the A&S Foreign Language Requirement with 3 college semesters of a different language. Students choosing this option should replace the 4th semester of language with electives. Also note that if you take a foreign language placement exam, you may be exempt from 1 or more of the beginning semesters of that language. In this case, replace the by-passed language courses with electives. Any language sequence may be used to satisfy the foreign language requirements - French, German, Greek, or Latin is recommended.
- ◇ 6 hours of 'free' electives - that do not count toward any other requirement - must be taken. Additional electives may be required to reach the required minimum of 120 hours. Consider pursuing a 2nd major or minor.
- § The History pre-major requires one pair of courses - HIS 104/ 105; or HIS 108/109. (Although still technically part of the major, please note that in practice the HIS 106/107 sequence is not currently being offered.) Parts of these pairs can be completed through UK Core Requirements as noted above. Please consult with your advisor.
- † Please speak with the DUS in history about making an exception so that a natural science/mathematics course can count toward related coursework outside of history.
- ^ Counts toward 60 credit hours in the physical, biological and/or mathematical sciences.
- **Race and Ethnicity Requirement:** The College requires its students to complete an approved race and ethnicity (R&E) course that will address the changing meanings of race and ethnicity across time and space. Students may double-dip courses to satisfy the R&E requirement with any other requirement.
