

# Mathematics - B.A.

## College of Arts and Sciences

The department offers two programs leading to the B.A. or B.S. degree. Students may major in mathematics by completing the requirements for either: Option A, Mathematics or Option B, Mathematical Sciences.

The mathematics option consists of courses offered solely by the department of mathematics and is intended for those who wish to follow a traditional mathematics career path. The mathematical sciences option consists of courses offered by the departments of computer science, mathematics and statistics, and is intended for those who opt for a career that requires the application of mathematics. The requirements for these programs are outlined below.

#### 120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree in the *Arts and Sciences* section of the 2022-2023 Undergraduate Bulletin.

#### **UK Core Requirements**

See the *UK Core* section of the 2022-2023 Undergraduate Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

I. Intellectual Inquiry in Arts and Creativity Choose one course from approved list
II. Intellectual Inquiry in the Humanities   Choose one course from approved list
III. Intellectual Inquiry in the Social Sciences   Choose one course from approved list
IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences Choose one course from approved list
V. Composition and Communication I CIS/WRD 110 Composition and Communication I
VI. Composition and Communication II CIS/WRD 111 Composition and Communication II
VII. Quantitative Foundations MA 113 Calculus I4
VIII. Statistical Inferential Reasoning   STA 296 Statistical Methods and Motivations
IX. Community, Culture and Citizenship in the USA Choose one course from approved list
X. Global Dynamics Choose one course from approved list
UK Core hours

## Graduation Composition and Communication Requirement (GCCR)

MA 391 Mathematics: Composition and Communication
Graduation Composition and Communication Requirement hours (GCCR)
College Requirements
I. Foreign Language (placement exam recommended) 0-14
II. Disciplinary Requirements
a. Natural Science
b. Social Science
c. Humanities
III. Laboratory or Field Work1
IV. Race and Ethnicity Requirement0-3
V. Electives
College Requirement hours:

#### **OPTION A - Mathematics**

#### **Premajor Requirements**

Premajor hours:	11
CS 115 Introduction to Computer Programming	3
MA 114 Calculus II	4
*MA 113 Calculus I	4

### **Major Requirements**

### Major Core Requirements

Major Core hours:
MA 322 Matrix Algebra and its Applications
MA 261 Introduction to Number Theory
MA 214 Calculus IV or
MA 213 Calculus III

### Other Course Work Required for the Major

#### From the Major Department:

#### From Outside the Major Department

#### - CONTINUED -

University of Kentucky is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate, baccalaureate, masters, and doctorate degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097, call 404-679-4500, or online at *www.sacscoc.org* for questions about the accreditation of University of Kentucky.

## Mathematics (B.A.) • 2

## **OPTION B - Mathematical Sciences**

## **Premajor Requirements**

*MA 113 Calculus I	
or	
*MA 137 Calculus I with Life Science Applications	.4
MA 114 Calculus II	
or	
MA 138 Calculus II with Life Science Applications	.4
CS 115 Introduction to Computer Programming	.3
Premajor hours:	11

## **Major Requirements**

## **Major Core Requirements**

CS 215 Introduction to Program Design, Abstraction
and Problem Solving4
MA 213 Calculus III
MA 214 Calculus IV
MA/STA 320 Introductory Probability
MA/CS 321 Introduction to Numerical Methods
MA 322 Matrix Algebra and its Applications
STA 321 Basic Statistical Theory I
plus a two-semester sequence chosen from the following:
MA/CS 340 Applicable Algebra and
MA/CS 415G Combinatorics and Graph Theory
MA 432G Methods of Applied Mathematics I and
MA 433G Introduction to Complex Variables
MA 481G Differential Equations and
MA 483G Introduction to Partial Differential Equations
MA/CS 416G Introduction to Optimization and MA/STA 417G Decision Making Under Uncertainty
